COMPANY PROFILE

Amac Ventures is a professionally managed organization established in 2024, driven by a clear vision to become a trusted name in the bicycle and bicycle components industry. The brand represents ambition, reliability, and a long-term commitment to building enduring relationships with employees, dealers, vendors, and customers.

The company is engaged in the manufacturing of complete bicycles and a wide range of bicycle components, delivering integrated solutions to meet the evolving needs of the market. Through efficient operations and a structured growth approach, Amac Ventures is steadily strengthening its presence across India.

Quality excellence is central to our operations. We utilize high-grade raw materials sourced from reputed suppliers, supported by modern in-house testing and quality control facilities that ensure consistency, durability, and performance in every product. Our manufacturing processes comply with recognized standards, reinforced by ISI certification from the Bureau of Indian Standards and ISO 9001:2015 certification, enabling us to serve both domestic and international markets.

At Amac Ventures, we believe sustainable growth is built on people and partnerships. We foster a professional and progressive work environment for our employees and maintain transparent, value-driven relationships with our business associates.

Guided by strategic planning, technological adoption, and a customer-focused approach, Amac Ventures continues to expand its capabilities and product portfolio. With a strong foundation and a forward-looking outlook, the company remains committed to delivering reliable, affordable, and high-quality mobility solutions.

Our Philosophy

“To provide excellent transportation solutions at affordable prices while ensuring total satisfaction across all aspects of our operations.”

INFRASTRUCTURE & FACILITIES

We have some most contemporary infrastructural facilities that help to manufacture wide array of products. We have an excellent inventory and we can deliver both small and bulk orders of goods at a short span of time. The space that we cover for our use is the biggest asset we have. Moreover, we have sophisticated machinery set up and we can manufacture customized goods readily as specified by our customers. Our infrastructure is segregated into different departments like:

PRODUCTION UNIT

IN-HOUSE DESIGN UNIT

ADMINISTRATIVE UNIT

SALES & MARKETING UNIT

QUALITY UNIT

OUR MISSION

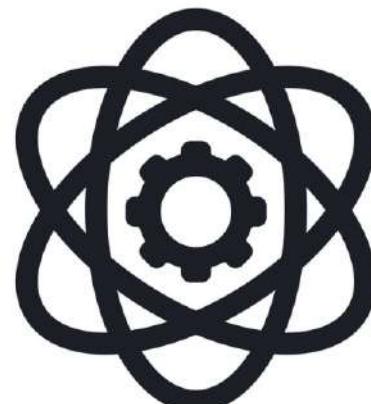

The Mission of our company results from its strategy. Its main aim is to continue improving the high quality of products and services. All our activities are determined by the diverse needs of our customers and aimed at meeting their ever-changing demands.

The priority for all our employees is to be able to provide every potential customer with top quality products, as the satisfied customer translates into our success. We intend to achieve this aim by meeting customer expectations, offering professional services and high-quality products at competitive prices as well as providing diverse assortment of products.

OUR VISION

To become the largest Manufacturer & Supplier of all types of industrial Washers, Cage Nuts & Sheet Metal Component in the Asia Pacific Region by the year 2022.

Core Values "SIDDHANTH" OR "ADARSH"

- Providing Opportunity & Empowering people to achieve growth.

Railways, Refinery, Wind Turbine, Racks, Highway Guardrail, Electric Transforming, Cycle Industry, Automobile etc...

QUALITY ASSURANCE

Our R&D department mainly ensures the quality of the product which is a very important factor when producing Products, no matter if it is relating to the Automotive, Industrial or Electrical industries. Quality is of vital importance. Our Quality Assurance Department was set up by way of preventing mistakes or defeats in our own manufacturing process, and also to provide effective solutions if problems were to arise. TENSILE adopts the working practises "Fit for purpose", which signifies our components are suitable for the intended purpose and have been approved by our customers, and "Right first time", which means mistakes must be eliminated so only high-quality components are manufactured from the onset of production.

OUR QUALITY POLICY

Tensile Products stands for total customer satisfaction through best quality, timely delivery and is committed to continually improvement in its quality management system. We achieve total customers satisfaction by applying following parameters.

- Use of Genuine Material
- Producing Quality goods
- Adhering to delivery schedules
- Customer Satisfaction
- Competitive Prices

QUALITY CONTROL

We take a look for quality control from the raw material stage, wherein we check chemical as well physical properties of it. All raw materials accepted and passed are free from cracks and surface discontinuities.

WARRANTY

Our products are guaranteed against the manufacturing defects and bad workmanship. For any further details we are always at your service.
